SPORTS

KAMEHAMEHA'S BASEBALL PROTEST

The Kamehameha Baseball Team has filed a protest with the baseball trustees, against any of the members of the defunct Malle team playing with any other teams of the league.

The trustees have decided that they have no jurisdiction at this stage of the game, as in cases of this kind the league first decides, an appeal lying from its decision to the trustees. The league consists of two representatives of each club and certain elected officers.

The trustees suggest to the Kamehamehas, however, that whether their position is technically correct or not, the spirit of the rules referred to are not violated by the Malle players entering other teams, as the Malle have disbanded for the season. In the interest of securing the best players and thereby the best baseball, the trustees express the opinion that good sportsmanship will be promoted if the Kamehamehas will drop their protest, and express the hope that this course will be pursued.

The following is the full communication from the trustees to the Kamehamehas:

THE TRUSTEES TO THE KAMEHAMEHAS.

Honolulu, T. H., August 17, 1906.
U. Lemon, Esq., Manager, and Richard P. Reuter, Captain of the Kamehameha Baseball Team.

Gentlemen: I am directed by the trustees of the Honolulu Baseball League to acknowledge the receipt of your communication of the 14th inst., protesting against the allowance of certain members of the Malle Ilma Baseball team to play with the Punahou Athletic Club and the Oahu Baseball team on the 14th inst.

Without expressing any opinion upon the merits of the subject matter of your communication the trustees are of opinion that they are without jurisdiction in and concerning the same, for the following reason: You state that you protest against the action of the league in allowing the Punahou and Oahu teams to play with members of the Malle Ilma ball team in their teams.

Section twelve of the by-laws only gives the trustees jurisdiction over a matter of this kind on appeal from the league.

We have no information that this matter has been decided by the league but on the contrary are informed that the matter has not been so decided by it.

This is a proper matter for the league itself to settle and only upon its rendering a judgment therein is an appeal to the trustees permissible.

Without therefore, discussing the technical rights of your club in this matter, the trustees, in the interest of baseball, suggest for your consideration that the spirit of the by-law relating to the subject matter of this letter has not been violated by the playing of certain ex-members of the Malle team with certain other teams of the league. The object of the by-law was to prevent the loaning or transfer of men from one team to another so as to bunch the strongest men from several clubs against a particular club. It was based upon the hypothesis, however, that all teams would remain in active play and that the good players of the town would consequently all have an opportunity to continue playing during the season.

In the present case the Malle Baseball team, so far as any further playing this season is concerned, has disbanded. The Malle club has nothing further to do with the games of this season, their only interest being in a proportion of the net profits of the league. Under these circumstances the league and the public will lose the services of all of the members of the Malle team for the balance of this season if the by-law in question applies.

In the interests of good sportsmanship and of the players of the Malle team who may want to continue to play during the season and in the interest of securing the best possible players for the remaining games of the season, the trustees sincerely hope that your team will not press this question further even though you may think the letter of the by-law supports your position.

I have the honor to remain,
Your obedient servant,
(Sgd.) L. A. THURSTON,
Secretary, Trustees Honolulu Baseball League.

Can't Be Separated.

Some Honolulu People Have Learned
How to Get Rid of Both.

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Backache Kidney Pills make strong, healthy kidneys.

S. Hanouant, of this city, is a Custom House guard. He writes: "Having been afflicted with an aching back for some time, I procured a supply of Doan's Backache Kidney Pills at Hollister Drug Co.'s store, and used them. The results were most satisfactory and I know that the pills are a valuable medicine for a lame back."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Ltd., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no substitute.

TO MANCHURIA PASSENGERS

The Pacific Mail Co. has allowed a rate of \$3.50 per day. So passengers can choose their own hotel

THE ROYAL HAWAIIAN HOTEL

is on the European and American plan. The house has been re-modeled. Has never been shut up and never will be. It is clean and well managed. Below are published a few samples of our menus: Breakfast, lunch, dinner. All meals served on large semi-circle verandas. It is a Tourist Hotel; beautiful trees and lawns; the only hotel in the city that can give such accommodations. Rates reasonable.

BOARD OF AGRICULTURE
DISTRIBUTES RUBBER SEEDS

The Forestry Department, Board of Agriculture and Forestry, has secured from several sources a fresh supply of Ceara rubber seeds, which are being distributed free, in small quantities, to anyone who will undertake to plant and care for them and report to the Board from time to time what the results achieved are.

The seeds are mailed to applicants together with instructions as to how to propagate and plant the trees.

Already about one hundred persons scattered throughout the Territory have applied for seeds. Each applicant is requested to sign a postal card agreeing to care for the trees and report thereon.

The object of the Board is to get the seeds planted in as many different localities, soils and climates as possible, so as to ascertain just what can be done with the Ceara rubber throughout the Territory. All of the reports will be compiled and published for the information of the public.

The following is the form of agreement and instructions being sent out by the Board in connection with the seeds:

FORM OF AGREEMENT SIGNED BY APPLICANTS.

Board of Commissioners of
Agriculture and Forestry:

The undersigned hereby agrees to plant and care for seed or seedlings of Rubber trees furnished by the Division of Forestry for experimental purposes, and to occasionally report upon the condition and growth of the same, on blanks furnished for that purpose.

It is the intention of the undersigned to plant the seed or seedlings, on the land of..... owned by..... in the District of..... Island of.....

Name..... Address.....

Date:.....

INSTRUCTIONS FOR PROPAGATING THE CEARA RUBBER (MANIHOT GLAZIOVIL).

The Ceara rubber seed has a very thick and hard coating, and natural process of germination occupies some months. The seed should be carefully rasped with a file or ground on both edges of the radicular end without injuring the embryo—the operation requires care. After this treatment, properly performed, the seed should be planted about two inches apart in seed box or bed using, if possible, good soil. If the soil is stiff, about one-half white sand ought to be added and thoroughly mixed. The seed should not be planted over half an inch deep.

PROTECTION FROM RATS IS ABSOLUTELY NECESSARY.

The soil ought to be kept moist and if planted in a box, five or six three-fourth inch holes ought to be bored in it for drainage. The seeds should begin to come up within two weeks, when it will be necessary to remove the pulps adhering to the primary leaves if the weather is dry.

After the third leaf has developed the young plants should be transplanted. Great care ought to be taken to protect the roots from exposure and as much soil as possible remain intact about them. From nine to ten feet apart is considered about the right distance to plant in permanent position.

MAKING HOLES AND PREPARING THE SOIL.

This subject as well as the following one requires particular attention and a little extra labor in making a good hole and preparing the soil properly will pay in the long run.

In stiff or hard soil the holes should be made three feet square and from two and one-half to three feet deep; in free soil smaller holes will suffice. As the top soil is generally the best it should be put to one side, so that it can be used around the roots of the tree when the hole is refilled. The soil should be well broken up and the turf, if any, should be put grass side down in the bottom of the hole.

PLANTING.

The hole should be filled to within two inches of the surface reserving the best soil to pack about the tree. The soil should be tramped lightly with the feet after which a small hole should be made to receive the plant. The tree should be planted about one inch deeper than it was before, and the soil packed firmly around it.

CARE OF TREES AFTER PLANTING.

After planting the ordinary care generally given to economic trees will be sufficient.

PROPOSALS FOR CONSTRUCTION OF ROADS, ETC. Office Constructing Quartermaster, Honolulu, H. T., August 14, 1906.—Sealed proposals in triplicate for construction of Roads, Sidewalks and Grading at the new post at Kahauiki will be received here, until 10 a. m., September 13, 1906, and then opened. Blank proposals and information furnished on application. Envelopes containing proposals should be endorsed, "Proposals for Roads, etc.", and addressed to C. F. Humphrey, Jr., Captain and Quartermaster, U. S. A., Honolulu, H. T. 7494
